Re: Telergy Network Services, Inc.
Docket No. 00-00661

Dear Mr. Dwaddell:

Pursuant to your letter dated December 20, 2000, requesting information regarding Telergy Network Services, Inc.'s ("Telergy") Application for a Certificate of Public Convenience and Necessity to provide facilities-based local and resold local exchange services and interexchange telecommunications services within the state of Tennessee, we respectfully submit the following responses:

Financial Requirements:

1. Enclosed please find a copy of Telergy's Capital Expenditures Schedule projected for 2001-2009, Third Quarter Financials and recent press releases.

Technical Requirements:

1. The locations of Telergy's switches are Syracuse, New York (3 switches); Ithaca, New York (1 switch); Newark, New Jersey (2 switches) and Oswego, New York (1 switch).
2. Numbering Issues

We have no current need for NXXs, nor do we anticipate needing any in 2001. In the event that Telergy decides to request them in the future, we would follow industry standards to order exchanges, unless industry standards are not compliant to Tennessee standards, in which case we will follow Tennessee standards.

Mr. Daryll Whitis was kind enough to grant us an extension of time beyond the January 3rd, 2001 deadline, in order to respond to your letter and I am enclosing an extra copy of this letter for him. Also, would you please acknowledge receipt of this filing by date-stamping the extra copy of this cover letter and returning it to the undersigned in the self-addressed, stamped envelope provided for this purpose. If you should require any additional information, please do not hesitate to call me at (315) 362-2259.

Very truly yours,
